

Equation window

The equation window is divided into two parts The first section **Variables** : The basic elements through which we want to create the equation, as there is a search box through which we search for the required field to add it to the equation

__ Section Two - **Elements and Values of the Equation**

Where we add the elements of the equation from variables or a value that we enter and perform mathematical operations inside them, the two arrows in the form of a triangle next to the value button are to open and close the parentheses in the equation
