

Columns Scheme

To show the report results as a column chart

A screenshot of a 'Simple Chart' dialog box. It has a title bar with a close button. Inside, there are three rows: 'X Axis' with a dropdown menu showing 'Mat. Name', 'Series field' with a dropdown menu showing 'Mat. Balance', and 'Column count' with a text box showing '20' and a spinner. Below these are three checkboxes: 'Axial' (checked), 'Use dBW' (unchecked), and 'Draw horizontal lines' (checked). At the bottom are 'OK' and 'Close' buttons.

X Axis	Mat. Name
Series field	Mat. Balance
Column count	20
☒ Axial	
☐ Use dBW	
☒ Draw horizontal lines	

X axis: to specify the axis field

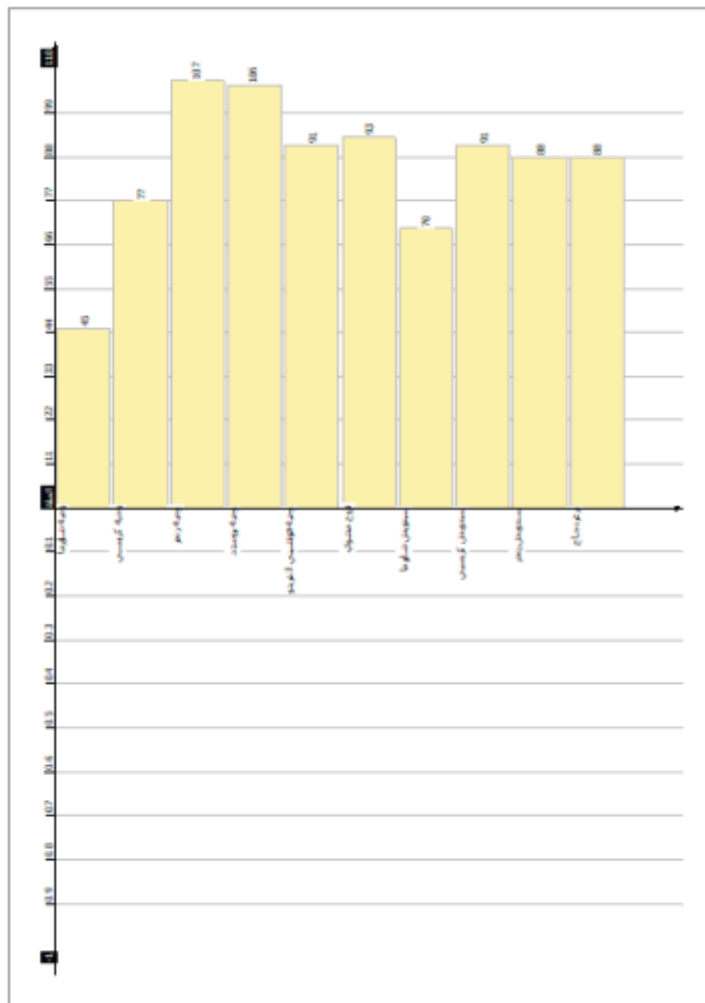

The string field: To specify the axis series

Number of columns: To determine the number of columns per page

Pivotal: Used to modify the results display settings

Use of dBW: More accurate results are investigated. It uses the expression for both very large and .very small values in a relatively few digits

Draw Horizontal Lines: To draw horizontal lines on the bar chart
