Quantities Segments

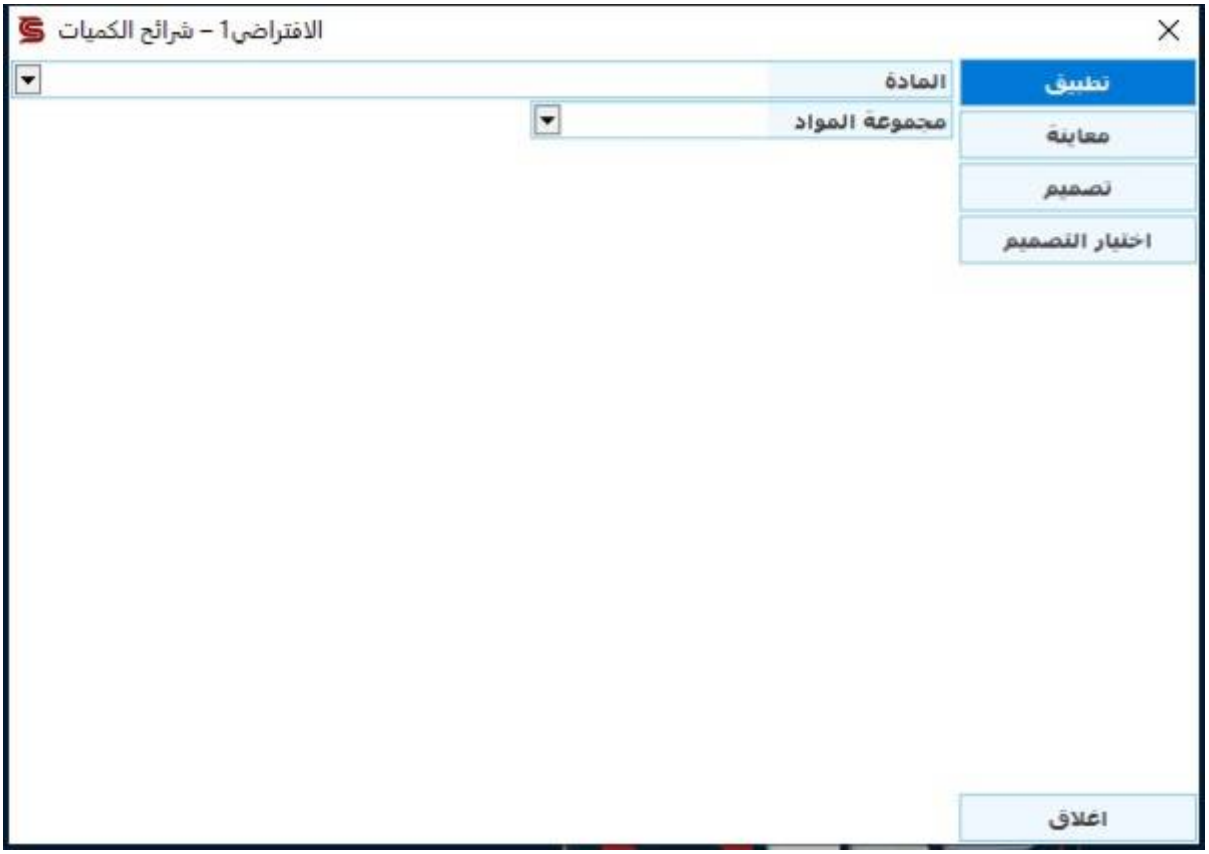

Quantity segments are the pricing of materials on the basis of quantity, meaning giving a discount on material based on the quantity demanded from the customer

Quantity Segments can be added from the material card

And the report of the quantities segments shows the slices that have been added to the material card, including quantity and price

To access the report of the Quantities Segments from

Stock - Reports - Detailed - Quantities Segments

It includes the report request window

Material : The name of the material required in the report

Material Groups : Request the report for a group of materials
