

Users Categories Groups

The work of users categories groups is to collect more than one category of users, the prerogatives of this group will be the sum of the prerogatives of the categories within it.

For example, a user who is responsible for purchases and has the prerogatives to work warehouses, we will here add a group of categories that include this group, the purchases category, and the warehouse category, and link this group to the user's card, this user will have the prerogatives of purchases and warehouses.

To access users categories groups through

General - Tables - Users Categories Groups
